Quite mature, very nicely made puppy who has, even at this young age, a very pretty head and expression. Well crested neck smoothly into excellent front angulation, lovely depth to ribs, correct topline and wide, well angulated hindquarters. Good length and shape to croup and carried her tail well. Good feet and short rear hocks. Moved out enjoying herself, soundly and with some style. Expertly handled. I think she has a bright future.

**2nd 833 MRS M BOTT - BARDONHILL LOVE OF MY LIFE**

Another baby of good quality and has all the essentials. Her head has good proportions just needs to break which it will, good bone, deep ribs and well finished hindquarters. Not the maturity of 1 at this stage but really promising youngster.

**2nd 1028 MRS P J RUTHERFORD - MAJESTYKA INDIAN SUMMER AT CLONAGEERA**

Lovely bitch, moderate throughout with great quality. Her head is beautiful, correct proportions and finish to muzzle, dark well shaped eye produced by correct amount of stop, I hope her owner doesn't mind but her head took me back to the beautiful girls she bred herself. Crested neck, decent front angulation with enough pro-sternum, deep ribs carried well back to loin, good finish to croup and tail set, at this stage just a little lacking in hind angulation but she has time on her side. Moved freely on excellent feet. I shall watch her progress with interest.

**3rd 936 MR A, MR D & MRS L STEWART & JONES - GWENDARIFF GOOSEBERRY FOOL**

Taller, rangier bitch. Good head properties , clean neck into good front angulation ,showing well developed pro=sternum. Ribs need to drop but are carried well back, strong loin, decent width to hindquarters, at this stage she needs to drop into her stifles but this may come as she matures. Moved soundly.

**1st 835 MISS L BOUGEN - GWENDARIFF HOT TICKET**

This young lady presented a very balanced outline and topline. Well-proportioned head with good amount of stop giving correct eye position and shape, showing raised brows. Well angulated front assembly, standing on good bone of correct shape, deep well sprung ribs carried nicely back to strong loin. Wide hindquarters with moderate amount of bend of stifle, good length to croup, carried well. Excellent movement which in the end won her the class.

**2nd 995 MR R S & MRS M I NICOLSON - GWENDARIFF JUST THE TICKET FOR LOCHINDORB**

Lots to like about this young lady. She has a pleasing head with good expression and plains. Correct front assembly showing well laid back shoulders and return of upper arm coupled with deep well shaped ribs giving good prosternum. Ribs are carried well back to loin. Wide strong hindquarters and moved soundly, she is just a little long through her couplings for my personal taste and her feet are not her fortune but quality bitch nevertheless.

**3rd 1015 MRS AR ROBERTS - JETSETTER CRISTALLE TO POLMENNOR JW(IMP RUS)**

Another pretty lady who has much to commend her. Decent front assembly but not the depth of rib of 1 & 2. Good topline and ribs are carried well back to strong loin, wide nicely angulated hindquarters with moderate bend to stifle. Lovely feet and moved soundly just a little wide in front today.

**1st 986 MR R C & MRS J P MUGFORD - LYNWOOD ABRACADABRA JW**

This very clever, understated, breeder, in my opinion, produces some of the best quality bitches in the breed, and this young lady is no exception. Such lovely overall balance and moderately reflective angulation fore and aft. Typically well-proportioned head and wistful expression, correct finish to foreface and good eye shape correct back skull. Crested neck flowed cleanly into her shoulders. Lovely topline. On the move she was sound and stylish I'm sure, when fully mature, she'll trouble the best.

**2nd 881 MRS S E EDWARDS - GWENDARIFF ITS NUMERO UNO AT BONHOMIE JW**

Unlucky to meet 1 in such form this racy, elegant lady is also very lovely. She has a pleasing head and expression, feminine without any trace of coarseness, correct back skull and crested neck fitting cleanly into her front assembly, well developed fore chest and deep well sprung ribs, good topline and well set on tail. Her hindquarters need a bit more time to develop fully, decent feet and moved soundly .

**3rd 826 MR G & MRS J J BAYNE - CORRANROO ONE MORE KISS**

Another stylish bitch. For me I would like a little more leg height to body length for balanced body outline. Good properties to head, with dark, well-shaped eye and raised brows, crested neck, decent angulation to forehand, deep well sprung ribs carried well back to strong loin and wide well angulated hindquarters, very good feet and moved soundly and with style.

Balanced outline on this young lady, Good finish to muzzle and good eye shape showing raised brows, I would prefer a leaner skull, low set ears and crested neck. Good layback to shoulders and deep well sprung ribs, strong through loin, hind quarters proportionate to front in angulation, good feet and moved, when trying, well.

**2nd 972 MESDAMES I & J MCNEIL & BOYD-MCNEIL - GLENNLOKHEN DEVERON**

Really pleasing girl who unfortunately left her coat at home. She is well balanced with plenty of work in her foreface, good eye shape with raised brows and lovely finish to skull, clean through her neck and shoulders, well sprung ribs and strong loin, with maturity her hindquarters should develop further, excellent feet. Moved soundly holding her topline.

**3rd 912 MRS I M HILLOCKS - JONOLA FIREBIRD**

4<sup>th</sup> in Yearling, this young lady has a racy outline, with pretty head and lovely expression, good proportions and correct finish to foreface, raised brows and good back skull. She's not the most co-operative but when she chose to she is possessed of a decent front assembly, deep ribs and strong loin. She has wide hindquarters just a little weak through her 2<sup>nd</sup> thigh and I would prefer a better angle to croup. Moved soundly.

:

**1st 836 MR R, MISS H & MR J BOUTTELL & BURBRIDGE - IXIA RAINBOW BRITE**

Lovely head and expression, super, proportionate head piece with lovely finish to foreface, enough stop to have correctly placed and shaped dark eye and wonderfully expressive eyebrows, so soft and a second later so full of mischief, she made me almost laugh out loud!, low set ears, lovely back skull of correct shape, strong neck, good layback to shoulders, would just like a little more return to upper arm, deep well sprung ribs and adequate prosternum. Correct topline, wide hindquarters to well bent stifles and strong rear pasterns, a little shorter coupled than 2 but all in proportion. She moved with style and “Irishness”.

**2nd 968 MRS D E MCDONALD - DELSANTO MISS FREYA**

Well made, quality bitch with good head proportions just a little plainer in foreface than 1, nicely raised brows eye shape and colour and good back skull, strong crested neck into well made front assembly, with deep well sprung ribs giving nice prosternum. Balanced bitch of some quality. She has more scope than her handler gives her credit for. Pretty head and expression, strong neck into good front assembly and enough depth of chest. Racy, elegant bitch with sweet head and expression, she is much matured since I last judged her and she is the better for that. Wide hindquarters well developed stifles and good tailset Moved soundly.

Quite lovely young lady who has a really pleasing head and expression with plenty of work through her foreface. Well balanced throughout and angulations fore and aft are moderate and reflective. Substantial bitch of good quality, her head has good proportions I would like a little more work through her foreface but it is correctly shaped. **2nd 870 MISS O P DANKS-KEMISH - RAPPATTY STAR LIGHT OVER ALOLFRANA JW SHCM**

Fully coated bitch of lovely quality. I judged her as a puppy and she has justified my faith in her. There is much to like about her and she is well proportioned with good angulations front and rear. Lean head, with well shaped eye and raised brows, clean through her cheeks and good back skull, would just like a bit more work in her foreface. Clean crested neck into good front assembly, deep through her ribs and strong in loin. Well developed hindquarters, short rear pasterns allowing drive, good feet and moved well showing reach and drive just preferred the head and topline of 1 but she's very lovely.

Another bitch I have judged previously and she has lovely breed type. Sweetest head and lovely mischievous expression. Well-made front with enough prosternum, well ribbed back and correct loin, correct topline and well developed hindquarters, short strong rear pasterns and decent feet. **1st 819 MRS D M ARMITAGE - SH CH/IR SH CH GWENDARIFF COCO NUT CREAM CW'18**

This well-known bitch really shone today. I have watched her from the ringside and it was a pleasure to be given the opportunity to put hands on her. There is nothing exaggerated about her and her balance on height to length is spot on. Racy, combining substance without any trace of coarseness and beautiful topline. Really pleasing head with correct finish to muzzle, dark well shaped eye and brows, clean cheeks and well finished back skull. Her correct length and crest to neck flows into a really well made front assembly with layback to shoulder and return of upper arm spot on. Deep well sprung ribs taken together with angulation giving good fore-chest, her well-muscled loin gives a great finish to her topline and her wide well angulated croup, gives correct balance to her stifles and strong 2<sup>nd</sup> thigh, strong rear pasterns finish the picture. It is in her movement that all this comes together and the whole exceeds the individual components. She moves with panache and, something lacking in many today, proper articulation through her joints making for light, long, ground covering strides. I'm sure her owner is very proud of her and to my mind she is one of the very best ever produced by this famous kennel. While no dog is perfect to my eye she's not far off it. She was immaculately presented and without fear or favour I could not deny her the Challenge Certificate. On the referees decision Best Opposite Sex.

**2nd 832 MRS M BOTT - GWENDARIFF SUCH A CARRY ON AT BARDONHILL JW**

This bitch has really blossomed and is now the finished article and as far as I'm concerned has now fulfilled her young potential. Elegant without losing substance, holding a good topline. She has a well-made head with good balance low set ears and well-shaped dark eyes with good brows, nicely shaped back skull showing correct finish and strong, crested neck. Excellent front angulations and deep well sprung ribs carried well back to a strong loin, wide, strong hindquarters with good bend of stifle, not overdone. Strong rear pasterns. Moving she showed reach from her front and good drive off well-articulated hock joints. Delighted to award her R.C.C.
