

IRISH SETTER BREED NOTES
W/C MONDAY 7TH NOVEMBER 2022

Brief notes this week just to include the following from Meg Webb re DEFRA's PIR survey:

We are contacting you regarding potential changes to legislation and research on welfare relevant to your club and its members. As a stakeholder organisation, we are taking this opportunity to share the Defra breeding regulation questionnaire-based consultation with those who may hold an interest.

We are hoping you are able to circulate the Defra PIR survey to any licensed breeders within your breed club who may wish to respond to Defra's breeder licensing review, and perhaps anyone who was impacted or has had to alter their breeding activities due to the 2018 regulations.

Click here for the opportunity to feedback to Defra on the breeding regulations currently under review - [LAIA PIR Survey \(Schedule 1, parts 1 & 5, Schedule 6 - Breeding of dogs\)](#).

Please note that this survey has a deadline of 11th November 2022.

There's nothing to report on the Irish show scene this week but yesterday I went to a WSS breed club open show and was reminded of this story from 6th November 2016.

MLM was quite well behaved at the show today and didn't do anything daft; until she got a dog towel caught in her glasses and did her own interpretation of wearing a burka. Don't ask.
